

You're So Close

Peter Murphy

Say you, say you, say you
I can hear the groove, I can spell the words
I can climb the scale, I can ride the curves
I can hit the note, I can beat the beat
I can dance the jump, I can tap my feet
Say you

Getting closer, stop me dreaming
Wanna feel you, you're so close
Can't write now, wanna feel a hit
Can't drive now, wanna phone you

Can't play it very well but it is what I want
And what I want is what it takes
It could be slick it could be fake
It could be anything at all

Get it strong you get all
No chits no thing help that
Just get it written on the wall
Say you

Can't hear you, you're so close
Wanna feel you, you're so close
Can't write now wanna feel a hit
Can't drive now wanna phone you

Say you, say you
I can hear the groove, I can spell the words
I can climb the scale, I can ride the curves
I can hit the note, I can drop the beat
I can dance and jump, I can tap the feet

Can't play it very well but it is what I want
And what I want is what it takes
It could be slick it could be fake
Say you

Can't hear you, you're so close
Wanna feel you, you're so close
Can't write now wanna feel a hit
Can't drive now wanna phone you

Get closer, stop me dreaming
Wanna feel you you're so close
Can't write now, wanna feel a hit
Can't drive now, can't drive now
Can't drive now, can't drive now
Can't drive now
