

Angel Of Light

Petra

City lights are flashin', they call you to the streets
Hearts are filled with passion in everyone you meet
The Boulevard is waitin', it wants to get you high
Neon signs are waitin' to sell you anythin' you want to buy

But I know your devices, it shouldn't seem so odd
You lied from the beginnin', I see through your facade

Angel of light, I see you glow in the night
But you only bring darkness to my soul
Angel of light, you're tellin' me wrong is right
But I won't let your evil take control

They follow in your footsteps, not knowin' that you fell
Bumper to bumper on the freeway to hell, you lead them into wrong
You make it look so right, you lead them into darkness
And make them think you lead them into light

But I know where you're going, too bad you're not alone
If it wasn't for the real light, I might have never known

Angel of light, I see you glow in the night
But you only bring darkness to my soul
Angel of light, you're tellin' me wrong is right
But I won't let your evil take control

You got the clergy workin' overtime to widen the narrow way
You've got politicians everywhere listenin' to what you say
You've got false apostles teachin' lies, perverting the only way
You've got principalities and powers waitin' to obey

You've got philosophies and vain deceits lyin' to deceive
You've got hate and greed, ungodly lusts in the deadly web you weave
Somehow you've got so many thinkin' you're not even there
One look is all it takes to get them blinded by your glare

Angel of light, I see you glow in the night
But you only bring darkness to my soul
Angel of light, you're tellin' me wrong is right
But I won't let your evil take control, oh no

Angel of light, I see you glow in the night
But you only bring darkness to my soul
Angel of light, you're tellin' me wrong is right
But I won't let your evil take control
I won't let your evil take control, oh no, no, oh Lord, oh no
