

## Beat The System

Petra

Caught in the undertow being swept downstream  
Going against the flow seems like such a dream  
Trying to hold your ground when you start to slide  
Pressure to compromise comes from every side  
Wise up, rise up

You can be more than a conqueror, you will never face defeat  
You can dare to win by losing all, you can face the heat - dare  
to  
Beat the System

On the assembly line trying to break the mold  
Time to throw the wrench that will stop it cold  
Going against the odds being the underdog  
Dare to wield the sword that will slice the fog

You can go for it all  
You can go for broke  
You can turn the tide around  
You can aim for the top  
And take the lion's share  
If you dare to hold your ground
