Morning Star

Every moment of every single day Becomes a testimony to your saving grace Thank you Jesus for all you've done Now the Father can call me His son And the victory's been won

Oh, I really love You Oh, I really love You And I want to be where You are Jesus, bright Morning Star Oh, I really love You Oh, I really love You And I want to be where You are Jesus, bright Morning Star

That sure salvation that I have gained from You Has changed and rearranged all that I knew When I'm near You my heart's so strong I write the music, but You give the song Let me sing along

And now I want to give back to You what You gave to me And feel the joy of offering all of my love and worship to You

Petra
