

Wake Up

Petra

Wake up!
You think you're having fun
Wake up!
And see what you have done

What do you think you are gonna do?
When you find out what you're really going through?
When there's no one else around
When there's no one to be found
Don't you be too late, there is no certain date
Please don't hesitate, it might just be too late
What are you gonna do?

Oh, why don't you wake up?
See what's going on
Wake up
Before your time is gone

Wake up!
You think you're having fun
Wake up!
And see what you have done

There's a time that comes in everybody's life
When you can't tell what to think is wrong or right
Don't you feel like you're alone?
No one makes it on their own
But only know you tried
You're never satisfied
That's because of pride
Behind that's where you hide
What are you gonna do?

Oh, why don't you wake up?
Open up your eyes
Wake up!
Why can't you see the light?
