

Whole World

Petra

Hearts are falling left and right
Children fear this planet's plight
Fatalistic fears abound
And take their toll without a sound
But through the vague uncertainty comes a bold assurity
This world is under sovereignty divinely ordered destiny
He holds this world together with the Word of His power
Safe within His hands 'til its own appointed hour

He's still got the whole world in His hands tonight
And only He knows where the sparrow lands tonight
And nothing in this world can stop His plans tonight
'Cause He's still got the whole world in His hands
In His hands tonight

Humanistic lies lament
The holocaust is imminent
Doomsday prophets in the news
Predicting who will light the fuse
The fate of His creation isn't subject to a man
The final consummation is according to His plan

He's still got you He's still got me in His hands tonight
