

# Gotta Tell The World

Petula Clark

Ring every bell in every steeple now  
I wanna tell everyone the news somehow  
I fell in love today and now it's here to stay  
How can you blame me for wanting to say  
Gotta tell the world

Put out the flags and let the fanfare sound  
Cut out the gags and get the word around  
I'm so in love with you and now I know it's true  
There's only one thing that I wanna do  
Gotta tell the world

I'll be with you forever  
I'll be there in your heart  
Time has found us together  
Time won't tear us apart

I'm gonna love you like no one did before, oh yeah  
And this love of ours will last forever more  
Because I need you so, I'll never let you go  
And 'cause I want everybody to know  
Gotta tell the world

So, get the word about and let the bells ring out  
And from the top of the mountains, I'll shout  
Gotta tell the world

Gotta tell the world  
...
