

He Loves And She Loves

Petula Clark

He loves and she loves and they love
So why can't you love and I love, too?

Birds love and bees love and whisper in trees loud
That's what we both should do
I always knew someday you'd come along
We'll make a twosome that just can't go wrong
Darling, he loves and she loves and they love
So why won't you love as I love you?

Birds love and bees love and whisper in trees loud
That's what we both should do
I always knew someday you'd come along
We'll make a twosome that just can't go wrong
Darling, he loves and she loves and they love
So why won't you love as I love you?
