

## Closer

PFR

9:20 in the valley of the sun  
Construction lights burn out on the 101  
There's a restless feeling in the center of my soul  
That won't let go now

Once again i am feeling the pain  
Of a hunger for the answer to the questions that remain  
Like a thirst that knows no quenching, a longing for a home  
I think i know now

Everyday i get a little closer  
Everyday i get a little closer

What ever happened to the days of my youth  
Trusting was easy when i could see the truth  
Still believing your redemption but i'm looking for the proof  
I'm not alone now

Everyday i get a little closer  
Everyday i get a little closer  
Everyday i get a little closer  
Everyday i get a little closer
