

# I Don't Understand

PFR

I retreat by myself at the back of my brain  
I cannot see what You're showing me through this pain  
I have found that I have found  
Nothing for so long

I don't understand, I don't need to  
I know You've a plan, You will see through  
It is in Your hands, I believe You

I say goodbye, I leave my loved ones far behind  
I'm asking why is this is the story of my life  
I have found that I have found  
Nothing for so long

I don't understand, I don't need to  
I know You've a plan, You will see through  
It is in Your hands, I believe You

I was only wondering  
I've been trying to understand  
I know there is more  
So much more than I can see

I don't understand, I don't need to  
I know You've a plan, You will see through  
It is in Your hands, I believe You

I don't understand, I don't need to  
I know You've a plan, You will see through  
It is in Your hands, I believe You
