Say

Let me go back And do it all over again What I know now I wish I knew then

There's a pain That just will not die

Let me hear you say, it's okay Let me hear you say, it's alright I could really use some words of comfort So I won't be alone tonight So I won't be alone tonight

Let me move on I've said, I was sorry Help me look out And see the sun again

'Cause there's a pain That someday must die

Let me hear you say, it's okay Let me hear you say, it's alright I could really use some words of comfort So I won't be alone tonight So I won't be alone tonight

Let me hear you say, it's okay Let me hear you say, it's alright I could really use some words of comfort So I won't be alone tonight

Let me hear you say, it's okay Let me hear you say, it's alright I could really use some words of comfort So I won't be alone tonight So I won't be alone tonight

So I won't be alone tonight I don't want to be alone tonight
