

# Wait For The Sun

PFR

Love will always stay  
Somewhere in your heart  
And hope will never fade  
Though at times it will be hard  
But lift your head anyway

God's Son is returning  
He's bringin' brighter days

So wait for the sun to come out again  
Storms always come  
But they blow away with the wind

So wait for the Son is comin' again  
Winds of trial blow hard  
So we've got to hang on, hang on to Him

And where's the joy you've known  
It seems you can't remember  
All the fire in your life  
Has turned to cold December  
But lift your head anyhow

He's won greater battles before  
What makes you think He won't fight now?

So wait for the sun to come out again  
Storms always come  
But they blow away with the wind

So wait for the Son is comin' again  
Winds of trial blow hard  
So we've got to hang on, hang on to Him

So wait for the sun to come out again  
Storms always come  
But they blow away with the wind

So wait for the Son is comin' again  
Winds of trial blow hard  
So we've got to hang on

Winds of trial blow hard  
So we've got to hang on  
Hang on to Him

Let the sun shine  
Let the sun shine in, the sun shine in  
Let the sun shine  
Let the sun shine in, the sun shine in

Let the sun shine  
Let the sun shine in, the sun shine in  
Let the sun shine  
Let the sun shine in, the sun shine in

Let the sun shine

Let the sun shine in, the sun shine in  
Let the sun shine  
Let the sun shine in, the sun shine in
