

A Sonnet To Both Ugly And Murderous

Pg.99

No I'm fine. I've lived so far my life in vain. Ah!
I've lived so far my life I'm tired. The only power
carve a flank. Don't tell me I'm tempted. Sign of
steady . Don't! Stop pulse of lightshades I'm tired.
You'll find ways in your brain/tired. Argh. You'll tell
somebody what I am. One fake beauty said sorry I'm like
you.

Just to say you should whisper. How candid I will be.
And together we'll lift up. I'm waiting for love and
I'll lie. I'm teaching some lesson life to me. How else
to cut the red thing out and lets cut the red out
together, inside I feel you.

ARGHHHH!

I will fake it and fall stand tall. You're acting tired
find your body laying down. I win, you can die.
Lay down I broke your knees. Sit down cuz of curtesies
our eyes lay inside. Its why you gave up time, though
that time has broken me. Set sight that you might see
the insides of why you gave up time. And you now you
have fucking broke me, and now you have fucking broke
me, and now you have fucking broke me, and now you have
... broken me.

arghhh I, I don't know, broken knees and heres
countdown inside fine you stole Guide your eyes. Stand
hes waiting Go and countdown.
Die .(I) Love just for her. I love just for her. I love
just for her. I love just for her. . I love just for
her.

This heart is stitched around a lone mistake. And in
the silence i knew it was my awake.
