

Fought It Out

Phantom Blue

Ran out of reasons
It's breaking me down
I can't figure out
These things I'm feeling
Is this what it's all about?
I was believing the things that you said
You had me going
This is the real world
Gotta keep my feet on the ground
On the ground

Fought it out with you
Out to the end, with nothing to gain
And now we're through
Fought it out, fought it out with you

I can't keep thinking of these mistakes
Now it's too late
Sometimes it hits me
And it's hard to face
Hard to face
