

## Slow It Down

Phantom Blue

This danger zone  
You get off on playing Russian Roulette  
Your life's so full of four lettered words  
Once you get started you don't give in

How much longer now  
Will you hang around  
How much longer now  
You've got to

Slow it down  
You're burning out the fire  
Running out of wasted time  
Slow it down  
You're shorting out the wire  
Soon you'll find you're one step over the line

You can't control such an overload  
You're always searching can't find your soul  
The stories on how to know me more  
Once we're together again and again
