Slow It Down

Phantom Blue

This danger zone
You get off on playing Russian Roulette
Your life's so full of four lettered words
Once you get started you don't give in

How much longer now Will you hang around How much longer now You've got to

Slow it down
You're burning out the fire
Running out of wasted time
Slow it down
You're shorting out the wire
Soon you'll find you're one step over the line

You can't control such an overload You're always searching can't find your soul The stories on how to know me more Once we're together again and again
