

## Slow Suicide

Phantom Blue

In this world of trouble  
How could you dare  
Never judge another by the cover that they wear  
One look at you and I can see  
I don't need your bad seeds  
No disguise could ever hide  
What you want to give to me

So now it's my game you are playing  
I won't give in to slow suicide

I know it's hard to turn away  
This is not my dying day  
Just ain't worth the price of life  
For you to give to me  
Now do you see what I mean?  
Or is it just a one-way street  
Lying eyes can hypnotize  
To what you want to see

So now it's my game you are playing  
You never know what fate can hide  
One bad night can leave your life in ruin  
I won't give in to slow suicide

Slow suicide, slow suicide  
I won't give in to your slow suicide  
You're just another mother fucker  
Trying to make me weak

Now I know about your kind  
And your sick mind  
I'll never fall into the trap of slow suicide
