

So Easy

Phantom Blue

Now I don't mean to be offensive
But your brain's not that expensive
That's okay with me
Your trash can mentality
Makes good for small talkology
I don't think I'm leaving

Now it seems so catastrophic
But oh well
Mom said to never play with matches

You make it easy
You make it so easy

Now I thought I'd seen it all
And I guess I'm still in shock
It's kind of sleazy
But when I look at your face
I see that saving grace
I get so weak in the knees

You make it so damn easy
You know it feels kind of frightening
You make it so damn easy
You know you come on like the lightning

So when I come a knockin' on your back door
You better let me in 'cause I want more baby
