

# Always On My Mind

Phantom Planet

everybody in this place get up and move away  
for all i care this town's already dead and empty  
I'm told that i'm a victim of obsession  
that's what my friends say  
oh i'm a fool for having ever let her tempt me

I turn pale when she walks by  
I am lost in her eyes  
She is always on my mind  
She is always on my mind

She glances over but she keeps on walking down that street  
all i can do is hope that she is thinking of me  
if i could blink, if i could breathe, if i could get my legs to move  
well this could be the day i get this girl to love me

I turn pale when she walks by  
I am lost in her eyes  
She is always on my mind  
She is always on my mind

She had turned, from a sound  
well i must have cried out loud  
She is always on my mind  
She is always on my mind

if i could blink, if i could breathe, if i could get my legs to move  
well this could be the day i get this girl to love me

I turn pale when she walks by  
I am lost in her eyes  
She is always on my mind  
She is always on my mind

She had turned, from a sound  
well i must have cried out loud  
She is always on my mind  
She is always on my mind
