

So I Fall Again

Phantom Planet

I can't say if this feeling
Coming over me is real
But I know its something you can't steal
So I'll buy another problem to approach
sell a virgin lie that can't be touched

So I fall again
So I fall again
So I break through
This rotten piece of wood again

I can't say if this here fucking subject
Should be dropped
But I know it's something you can't stop
So I'll buy another pickup line and sigh
And pretend that everything is alright

So I fall again
So I fall again
So I break through
This rotten piece of wood again

So I break through this rotten piece of wood
So I break through this rotten piece of wood
So I break through
This rotten piece of wood again

So I fall again
So I fall again
So I break through
This rotten piece of wood again
