

# Gush

Pharrell Williams

[Intro]

Gush  
Make the pussy just gush  
Make the pussy just gush  
Make the pussy just gush  
Make it, make it, just gush  
Make it, just gush  
I make the pussy just gush  
I make it, just gush

[Verse]

I'm imagining things  
Do you wanna try?  
Take off your halo and wings  
Girl, I can make her fly

[Pre-Chorus]

I don't know, what's come over me  
My momma didn't raise me that way  
You lit a fire, from inside of me  
That'd light your seat ablaze, girl  
Light that ass on fire

[Chorus]

I could be the guy to treat you  
To a nice movie, feed you  
But I don't wanna mislead you  
Tonight I think I wanna be dirty, girl  
Do you wanna get dirty, girl? Come on  
Light that ass on fire  
Do you wanna get dirty, girl? Let's go

[Bridge]

Girl the world's watchin'  
From sunset to midnight  
They're tryna catch a glimpse (intimacy)  
Of you and I
