

Kiss Of Fire

Phenomena

The dawn of darkness
Mist surrounds you
Echoes screaming
Shadows fall
The last light
Of holy madness
The hound of hell
Its master calls

Rising now from
Deep damnation
Sanctuary
From the light
Eyes burning
With the blood lust
Unfulfilled
In endless flight

Burning, burning
With desire
Steals your soul
The kiss of fire
Burning, burning
With desire
The touch of death
The kiss of fire

In passions rage
Intoxicated
With ecstasy
The chosen wait
Forsaking all
Deny salvation
For eternity's
Embrace

Now as one
As life blood passes
Endless nightmares
Now unfold
The craze and hunger
Now forever
The Prince of darkness
Now behold

Burning, burning
With desire
Steals your soul
The kiss of fire
Burning, burning
With desire
The touch of death
The kiss of fire
