

# Kiss Of Fire

Phenomena

The dawn of darkness  
Mist surrounds you  
Echoes screaming  
Shadows fall  
The last light  
Of holy madness  
The hound of hell  
Its master calls

Rising now from  
Deep damnation  
Sanctuary  
From the light  
Eyes burning  
With the blood lust  
Unfulfilled  
In endless flight

Burning, burning  
With desire  
Steals your soul  
The kiss of fire  
Burning, burning  
With desire  
The touch of death  
The kiss of fire

In passions rage  
Intoxicated  
With ecstasy  
The chosen wait  
Forsaking all  
Deny salvation  
For eternity's  
Embrace

Now as one  
As life blood passes  
Endless nightmares  
Now unfold  
The craze and hunger  
Now forever  
The Prince of darkness  
Now behold

Burning, burning  
With desire  
Steals your soul  
The kiss of fire  
Burning, burning  
With desire  
The touch of death  
The kiss of fire
