

## No Retreat - No Surrender

Phenomena

you give a little  
they take a lot  
keep on plushing  
give 'em all you've got  
up to the limit  
over the line  
keep on coming back  
time after time

i'm still in fighting  
don't count me out  
frustation growing  
what's it all about?  
close your eyes  
it won't go away  
if it's worth having  
there's a price to pay

no retreat,no surrender  
no more running in the night  
no retreat,no surrender  
turn and face it  
stand and fight

we'd all look heroes  
if looks could kill  
scared of living  
missing the thrill  
no more excuses  
no alibis  
right on the button  
between the eyes
