## No Retreat - No Surrender

## **Phenomena**

you give a little
they take a lot
keep on plushing
give 'em all you've got
up to the limit
over the line
keep on coming back
time after time

i'm still in fighting
don't count me out
frustation growing
what's it all about?
close your eyes
it won't go away
if it's worth having
there's a price to pay

no retreat, no surrender no more running in the night no retreat, no surrender turn and face it stand and fight

we'd all look heroes if looks could kill scared of living missing the thrill no more excuses no alibis right on the button between the eyes
