

# I'm Not Moving

Phil Collins

If you feel it do it,  
You don't need a reason  
For all you know it could be good for you

To show your feelings  
Don't just leave them  
Do the things you believe in, it's alright  
Don't worry turn around, I will still be here

I'm not moving...no really  
You just try and push me out  
No, I'm not moving...no really  
No, I'm not going anywhere tonight

If you think it, say it  
'Cos no-one will stop you  
Don't keep quiet, just 'cos you think you ought to  
Feel free to shout it loud, speak your mind, spit it out

'Cos I'm not moving...no really  
You just try and push me out  
No I'm not moving I can sit it out  
No really, there's no hurry  
So don't worry turn around, I will still be here

If it hurts don't do it  
'Cos no-one can take you make you drink  
And no-one can tell you what you think  
Remember if your spirit starts to sink  
Don't worry turn around, I will still be here
