For A Little While

Phil Vassar

Hot sun dancin' on the river We're sittin' on the bank and watch the world go by Our feet in the water she pressed her lips to mine We were so long on love but short on time

She could be a honeymoon sweet and a little wild But she was mine oh, for a little while

And I laugh every time I start to think about us We sent that summer out in style And she's gone but she let me with a smile 'Cause she was mine for a little while

We'd take a ride and head on down to airport road Put the seats back watch the planes leave town She always said nobody's strong enough to tie her down Oh but I wasn't lookin' for that anyhow

I knew she'd leave but I didn't know when It matters to me now oh but it didn't back then

And I laugh every time I start to think about us We sent that summer out in style And she's gone but she let me with a smile 'Cause she was mine for a little while

I keep seein' pictures now of me and her And those summer nights My mind fills with her, oh but it's alright 'Cause I laugh everytime I start to think about us

We sent that summer out in style And she's gone but she let me with a smile 'Cause she was mine for a little while Yeah she was mine for a little while
