

Ultimate Love

Phil Vassar

Never seen the Mona Lisa
Never walked across the moon
Never been to Casa Blanca
But I've been to Cancun
I'll never make the Fortune 500
On what I get paid

Please don't pity me,
'Cause I've got everything I need

Life don't get no better
I could live forever and never top this
Oh, I'm in poll position
Got a sweet suspicion there ain't nothin'
I've missed
Baby look at us
Standing in the middle of this ultimate love

When I was seventeen I shook
Joe Namath's hand
Once I won karaoke singin' "Piano Man"
One time in Vegas I won me 700 bucks
That's all real cool stuff but it don't
Measure up

Life don't get no better
I could live forever and never top this
Oh, I'm in poll position
Got a sweet suspicion there ain't nothin'
I've missed
Baby look at us
Standing in the middle of this ultimate love

Well, I don't know too much, but I know this love
Is bigger than the both of us

Life don't get no better
I could live forever and never top this
Oh, I'm in poll position
Got a sweet suspicion that there ain't nothin'
I've missed
Baby look at us
Standing in the middle of this ultimate love
Love, love
