Ultimate Love

Never seen the Mona Lisa Never walked across the moon Never been to Casa Blanca But I've been to Cancun I'll never make the Fortune 500 On what I get paid

Please don't pity me,
'Cause I've got everything I need

Life don't get no better I could live forever and never top this Oh, I'm in poll position Got a sweet suspicion there ain't nothin' I've missed Baby look at us Standing in the middle of this ultimate love

When I was seventeen I shook Joe Namath's hand Once I won karaoke singin' "Piano Man" One time in Vegas I won me 700 bucks That's all real cool stuff but it don't Measure up

Life don't get no better I could live forever and never top this Oh, I'm in poll position Got a sweet suspicion there ain't nothin' I've missed Baby look at us Standing in the middle of this ultimate love

Well, I don't know too much, but I know this love Is bigger than the both of us

Life don't get no better I could live forever and never top this Oh, I'm in poll position Got a sweet suspicion that there ain't nothin' I've missed Baby look at us Standing in the middle of this ultimate love Love, love
