

Coming Alive

Phil Wickham

I see Your banner above, lifted over our heads
It's waving in the sky and it's stained in red
From the far away hills comes a voice in the night
It's ringing in our hearts like a battle cry

Now we're coming alive
We're coming alive
Open your hearts
Take what's inside, let it go

We're speaking out for a change, but words are never enough
We could be the hands and the feet of Love
You need Love

Now we're coming alive
We're coming alive
Open your hearts
Take what's inside, let it go

Wake up from your sleeping
There's something to believe in
The only way to Love is to give yourself
Oh give yourself

Now we're coming alive
We're coming alive
So open your hearts
Take what's inside

Coming alive
We're coming alive
Open your hearts
Take what's inside

Open your hearts
Take what's inside
Open your hearts
Take what's inside and let it go
