

# Eden

Phil Wickham

When the first light brightened the dark  
Before the breaking of the human heart  
There was You and there was me  
Innocence was all I knew  
'Cause all I had to know was You  
We were running underneath the trees

I wanna see you face to face  
Where being in your arms is the permanent state  
I want it like it was back then  
I wanna be in Eden

I remember how You'd call my name  
And I would meet You at the garden gate  
How the glory of Your love would shine  
And I remember when the stars were young  
You breathed life into my lungs  
Oh I never felt so alive

I wanna see you face to face  
Where being in your arms is the permanent state  
I want it like it was back then  
I wanna be in Eden

To be naked and unashamed  
In a sweet down pour of innocent rain  
I want it like it was back then  
I wanna be in Eden

Where my eyes can see the colors of glory  
My hands can reach the heaven before me  
Oh, my God I wanna be there with You  
Where our hearts will beat with joy together  
And love will reign forever and ever  
Oh my God I wanna be there with You

I wanna see you face to face  
Where being in your arms is the permanent state  
I want it like it was back then  
I wanna be in Eden

To be naked and unashamed  
In a sweet down pour of innocent rain  
I want it like it was back then  
I wanna be in Eden
