

Holy Light

Phil Wickham

We have come
And now we will wait
For Your love to move
For Your light to break

Start a movement here
As we call Your Name
Let Your glory fall
Like a holy rain

Dead arise
Hearts be awakened
In this life
Earth will be shaken
Oh, Oh, yeah!

God who reigns over earth and sky
Flood this world with Your holy light
Start a fire that will never die
Flood this world with Your holy light

Every knee will bow
Every eye will see
Everyone will shout
Jesus Christ is King

Slave run free
Chains be broken
Darkness flee
Eyes be open
Oh, oh, yeah, yeah!

God who reigns over earth and sky
Flood this world with Your holy light
Start a fire that will never die
Flood this world with Your holy light
Holy light - shine Your light

There's fire in our eye
It's burning bright for You

Bring these dead bones back to life
Flood this world with light

God who reigns over earth and sky
Flood this world with Your holy light
Start a fire that will never die
Flood this world with Your holy light
Flood this world with Your holy light
