

# One God

Phil Wickham

Mighty Creator, You give us life  
Wonderful Savior, from death You rise  
Glory and Honor belong to You alone

There's only one God who can make the stars  
One God who saves our hearts  
One God You reign over all  
There's only one God who can set us free  
One God alive in me  
One God You reign over all

Father of mercy, You break the chains  
Now there is victory in Jesus' name  
Glory and Honor belong to You alone

There's only one God who can make the stars  
One God who saves our hearts  
One God You reign over all  
There's only one God who can set us free  
One God alive in me  
One God You reign over all

You alone are God (You reign forever)  
You alone are God (You reign forever)  
You alone are God

There's only one God who can make the stars  
One God who saves our hearts  
One God

One God who can make the stars  
One God who saves our hearts  
One God You reign over all  
There's only one God who can set us free  
One God alive in me  
One God You reign over all

You alone are God (You reign forever)  
You alone are God (You reign forever)  
You alone are God
