

# Tell Me a Story

Phillip Phillips

Tell you a story and it starts with time  
Moves to how you live, and learn how to die  
Another phase in this world that brings death to life  
So don't believe in everything you see  
Because what you want might not be what you need  
Hold your breath, jump with me and we'll survive  
Cause you are the song that leads me to the light

Hope is just a ray of what everyone should see  
Alone is the street where you found me  
Scared of what's behind you  
And scared of what's in front  
Live with what you have now  
And make the best of what's to come

Tell me a story long and true  
We aren't what we say  
We are what we do  
Just pieces of a puzzle to find where we stand just confused  
So you are the moon that pulls me through the night

Hope is just a ray of what everyone should see  
Alone is the street where you found me  
Scared of what's behind you  
And scared of what's in front  
Live with what you have now  
And make the best of what's to come

Live with what you have  
And make the best of what's to come

Hope is just a ray of what everyone should see  
Alone is the street where you found me  
Scared of what's behind you  
And scared of what's in front  
Live with what you have now  
And make the best of what's to come

So you are the sun that leads me,  
You are the moon that pulls me,  
You are the light that leads me,  
You are the moon that pulls me
