

Just One

Phillips, Craig & Dean

Ask what changes a man
And the answers are a dime a dozen
Points of view are like sand
Stretching out as far as the eye can see
There's a thousand different philosophies

But there's just one book
And there's just one name
With the power to heal and the grace to save
You can search the world for another way
But if you're lookin' for the road to be on
There's just one

There's too much at stake
To be wasting time on imitations
Promises and claims
There will never be a substitute
For the blood, the word, and the simple truth

'Cause there's just one book
And there's just one name
With the power to heal and the grace to save
You can search the world for another way
But if you're lookin' for the road to be on
There's just one

Door to open where truth and hope will be
Waiting there on the other side
Just one story that's never-ending
With life beginning in Jesus Christ

You can search the world for another way
But if you're lookin' for the road to be on
There's just one
