

# When Grace Walks In

Phillips, Craig & Dean

You're standing there with your list of regrets  
That you can't get past yourself  
You wish so bad that you could make the mark  
But your dreams are stuck on a shelf

And all you wanna do is turn back time  
And redeem the days you lost  
But shame keeps calling out your name  
The chains refuse to fall

It's not over, it's not over  
This is the moment grace walks in  
With arms wide open, arms wide open  
To tell you this is not the end

When doubt is strong and your will  
Is weak to even believe again  
That's when grace  
That's when grace walks in

You once believed that you could change the world  
With a fire deep in your soul  
Your faith was strong and the call was clear  
You were sure you could make a new road

Like so many the flame grew dark  
Your confidence hit the wall  
There always seems to be a lot o' big questions  
But the answers seem so small

It's not over, it's not over  
This is the moment grace walks in  
With arms wide open, arms wide open  
To tell you this is not the end

When doubt is strong and your will  
Is weak to even believe again  
That's when grace  
That's when grace walks in

Just in the nick of time  
Right there to save our lives  
Grace is greater, grace is greater

It's not over, it's not over  
This is the moment grace walks in

It's not over, it's not over  
This is the moment grace walks in  
With arms wide open, arms wide open  
To tell you this is not the end

When doubt is strong and your will  
Is weak to even believe again  
That's when grace  
That's when grace walks in  
That's when grace walks in

That's when grace  
That's when grace walks in  
That's when grace  
That's when grace walks in
