

## Light Up or Leave Me Alone

Phish

Sometimes I feel  
like I'm fading away  
You're looking at me  
I've got nothing to say  
Don't make me angry  
with the games that you play  
Just light up, or leave me alone

You walk in my room  
you lie in my bed  
You open your mouth  
shoot someone dead  
All of a sudden  
you're inside my head  
Just light up, or leave me alone

Spending my bread  
like it grew on a tree  
You're trying to tell me  
'bout the birds and the bees  
The skirt that you're wearing  
is way past your knees  
Just light up or leave me alone

You're up all night  
preaching your mind  
Come home in the morning  
with your latest find  
I'm gonna have to lay it  
to you straight on the line  
Just light up, or leave me alone
