

Talk

Phish

I can't talk my talk with you
Nothing's ever soaking through
The filter that surrounds your thoughts
And holds out lessons left untaught

I can't talk my talk with you
Nothing's ever soaking through
The filter that surrounds your thoughts
And holds out lessons left untaught

I can't talk my talk with you

I can't sing my song with you
Nothing's ever soaking through
The filter that surrounds your thoughts
And holds out lessons left untaught

I can't sing this song with you
Nothing's ever soaking through
The filter that surrounds your thoughts
And holds out lessons left untaught

I can't sing my song with you
I can't talk my talk with you
