No Regrets

Phoebe Snow

No regrets Although our love affair has gone astray No regrets I know I'll always care though you're away So now our happy romance ended suddenly Still in my heart you'll be forever mine No regrets Because somebody new looks good to you No regrets Sweetheart no matter what you say or do I know our love will linger When the other love forgets So I say goodbye with no regrets No regrets Because somebody new looks good to you No regrets Sweetheart no matter what you say or do I know our love will linger When the other love forgets So I say goodbye with no regrets
