

Headline from this day on  
Why you keep pretending that you wanna let go?  
Do. Do you wanna let go?  
Loud volume turn to low low low low low low

What you want and what you do to me  
I'll take the trouble that you have in mind

Entertainment  
Show them what you do with me  
When everyone here knows better  
What I once refused to be  
Is everything they long together  
I'd rather be alone

I love, I love, I love, I notice  
I heard it all before I died  
Before I knew you  
Once upon a time would take too long, long, long, long, long, long, long

What you want and what you do to me  
I'll take the trouble let you have my mind

Entertainment  
Show them what you do with me  
When everyone here knows better  
What I once refused to be  
Is everything they long together  
I'd rather be alone
