

# Everything Is Everything

Phoenix

Things are gonna change  
And not for better  
Don't know what it means to me  
But it's hopeless, hopeless

Gotta get you home  
Could be with anyone  
I think of what I've done  
Oh, you know it all

Everything, is everything  
The more I talk about it, the less I do control  
Everything, means everything  
Can't understand a word, half of the stuff I'm sayin

The things I do possess  
Sometimes they own me too  
What they gonna do to me  
If it's it's hopeless, hopeless

What I can't explain  
I'm sure you get it well  
Ah, since I always wanted  
I always wanted you

Everything, is everything  
The more I talk about it, the less I do control  
Everything, means everything  
Can't understand a word, half of the stuff I'm sayin

Riding low, Riding low, Riding faster  
This is what I want; look at what it did to me  
Riding low, Riding low, Riding faster  
This is what you want; this is what you get instead

Riding low, Riding low, Riding faster  
This is what you want, I always wanted you

Everything, is everything  
The more I talk about it, the less I do control  
Everything, means everything  
Can't understand a word, Half of the stuff I'm sayin

Riding low, Riding low, Riding faster.  
The more I talk about it, the less I do control  
Riding low, Riding low, Riding faster.  
Can't understand a word, half of the stuff I'm sayin
