

Everything Is Everything

Phoenix

Things are gonna change
And not for better
Don't know what it means to me
But it's hopeless, hopeless

Gotta get you home
Could be with anyone
I think of what I've done
Oh, you know it all

Everything, is everything
The more I talk about it, the less I do control
Everything, means everything
Can't understand a word, half of the stuff I'm sayin

The things I do possess
Sometimes they own me too
What they gonna do to me
If it's it's hopeless, hopeless

What I can't explain
I'm sure you get it well
Ah, since I always wanted
I always wanted you

Everything, is everything
The more I talk about it, the less I do control
Everything, means everything
Can't understand a word, half of the stuff I'm sayin

Riding low, Riding low, Riding faster
This is what I want; look at what it did to me
Riding low, Riding low, Riding faster
This is what you want; this is what you get instead

Riding low, Riding low, Riding faster
This is what you want, I always wanted you

Everything, is everything
The more I talk about it, the less I do control
Everything, means everything
Can't understand a word, Half of the stuff I'm sayin

Riding low, Riding low, Riding faster.
The more I talk about it, the less I do control
Riding low, Riding low, Riding faster.
Can't understand a word, half of the stuff I'm sayin
