

# The Real Thing

Phoenix

They said that you don't  
You promised too well  
I'm calling my number  
So that's real

Almost, almost, almost the real thing  
How could I have missed that one?  
How could I have missed it?

Am I the only one?  
You're into love  
Twenty-year-old and bored  
I learn for a better future

But lover in the ocean  
Drown into the throne that you sit on  
Far ahh  
Far, far away  
Hold me for a ransom  
It's not enough for you to live alone

Tell me that's what you wanted  
Follow, follow me  
Follow me  
Follow, follow me  
Follow me

You're more than I want  
I figured you well  
Back in September  
We'll make it a deal

Almost, almost, almost the real thing  
How could I have missed that one?  
How could I have missed it?

Am I the only one?  
You're into love  
Twenty-year-old and bored  
I learn for a better future

But lover in the ocean  
Drown into the throne that you sit on  
Far ahh  
Far, far away  
Hold me for a ransom  
It's not enough for you to live alone

Tell me that's what you wanted  
Follow, follow me  
Follow me  
Follow, follow me  
Follow me  
Follow, Follow me  
Follow me
