

Falling Star

Phyllis Hyman

Looking at the night sky as it falls upon the city
Somewhere, there's a bright light
burning out across the distance

This should not have happened
I was there but where were you?
If only I knew (2x)

You're my falling star, I wish you were here with me
You're my falling star, I'm gonna give you everything
You're my falling star, I will lift you up and make you see
That I love you, oh yes, I love you

Calling information, gonna find a way to reach you
If you're out there listening,
I'm the one who really needs you

Don't hide in the darkness,
hoping nothing will come through
'Cause I love you, yes I love you

You're my falling star, I wish you were here with me
You're my falling star, I'm gonna give you everything
You're my falling star, I will lift you up and make you see
That I love you, oh yes, I love you (2x)
(You're my falling star)
