

How Long

Phyllis Hyman

Get away from me
How long How long
Baby 1, 2, 3
How long
How long What's your problem
You aint getting enough from me
I aint crazy
I got the 411 you see
People talking
Telling me Im living in a make believe
Huh, ho
What's the matter
You aint man enough to face the truth
Don't chit and chatter
Youre out the door
Its over for you
Ive learned my lesson
Don't give my heart to no fool
But just for the record
CHORUS
How long
How long I wanna know
How long How long How long Oh
Get away from me
If you're thinking that youve pulled the plug on me
Im the one whose singing for the world to see
I can pick and choose from an assortment of masculinity
But just for the record
How long
CHORUS
How long, oh
How long I wanna know, hey, hey
How long How long How long Its a mere known fact
Im not sweet like I used to be
I finally learned
Only I change my history
And Im giving you your walking papers, baby
Oh, hey, hey, hey
But just for the record
How long
CHORUS
How long, ooh baby Will you talk to me
How long How long How long hey baby Base
I need to know
Base
Can you tell me why
Base
Oh how long, long, hey, hey, hey
How long I wanna know
How long How long How long CHORUS
How long I wanna know right now
How long How long How long CHORUS
How long, baby How long I need to know
How long How long Too late darling
Can you tell me why
I make the rules here
And you can't stay

Just go away child
You got to go now
