Cheerleader need her letter man
Yeah, knock knock, let me in
Give you a late show like Letterman
I'm right here boy, what you doing 'bout it?
Step up, I'll go do without it
I'll be waiting, anticipating

I got ya
Going 90 on the highway
Rolling up to my driveway
See the look on my face
I'm not the girl next door

You should already know-know-know
How this thing 'bout to go-go-go
You should already know-know-know
Thought that I told you
When you came over
You should already know
I need a soldier

You should already know

Hey there, Mr. President

You should already know-know-know
How this thing 'bout to go-go-go
You should already know-know-know
Thought that I told you
When you came over
You should already know
I need a soldier
