

# Speed The Road Rush The Lights

Piano Magic

Geography, be kind to me,  
For the miles apart are killing me  
Tonight I would die to be by her side  
So speed the road, rush the lights  
Speed the road, rush the lights

Even bad girls sleep tonight  
Even bad girls sleep tonight  
Their aspirin white legs,  
Marked by young lust's overbite  
Even bad girls sleep tonight  
Even bad girls dream tonight  
Their aspirin white legs,  
Scarred by young lust's overbite  
The snapped Ratner's chain  
Glints cold in the night  
The snapped ankle chain  
Glints cold in the night  
Caution is thrown to the wind  
And it does not blow back  
Caution is thrown to the wind  
And it does not blow back

Geography, please be kind to me  
For the miles apart are killing me  
Tonight I would die to be by her side  
So speed the road, rush the lights  
Speed the road, rush the lights
