

Devil On My Shoulder

Picture Me Broken

Walk through the door
Found your ghost upon the floor
My stomach's turning and it's all within me burning
If you'd see the future would
you know if I'd
Soon be sane again

I've searched for something
Lived for nothing
Waiting here to die for something

When your face arises my stomach drops
It's all too much
I'm just a little colder
With a devil on my shoulder
He says I'd like to show her
The way I'd get to know her
(I'm up to no good)

Strut down the hall
Saw your shadow on the wall
Soul escaping
Mind's awaking and I'm stuck beneath it all
I dyed these white lies black
Behind your back but you'd do just the same
Don't be ashamed you're just like me...

I am
I'm up to no good
I am
I'm up to no good
I am
Up to no good
