

Live Forever

Picture Me Broken

Something woke me
Woke me up and told me
I'm not half alive... I'm choking
Thought I'd hold on just barely
Turn my wishes in fears
And my smiles into tears
But it's over... is this over?

Rise from the ruins
I'll never die
I'll wake up feeling fine
And I think I could Live Forever
Alive as I fall from your cold embrace
I must die or live forever
Forever

Let's find strength to go our own way
Don't live another day
Drowning in all your
Enemies, don't follow me
I'm not listening
I've wasted so much time
I'll leave you far behind

Turned my wishes into fears
And my smiles into tears
But it's over
Is this over?

Your caustic words will never kill me
I'd like to be the last one to fall
It's not that I hate you
I'm simply above this
I just want to live
