

## Hot Lovin'

### Picture

Your face is magic  
Your words are so cold  
You felt so lonely  
I tried to let go  
What will it be whose gonna win  
Can't you see the trouble were in

Hot lovin' next to the stage  
Hot lovin' oh yeah we can make

You're dressed so lovely  
Your hair is a mess  
You see the stars  
Some bigger some less  
You think it's magic  
The lights and the sounds  
It is real you know what we found

You try to keep me going  
I couldn't stop the growing  
You know it's hard to handle  
You don't know where to run to
